The Boston Activists

On December

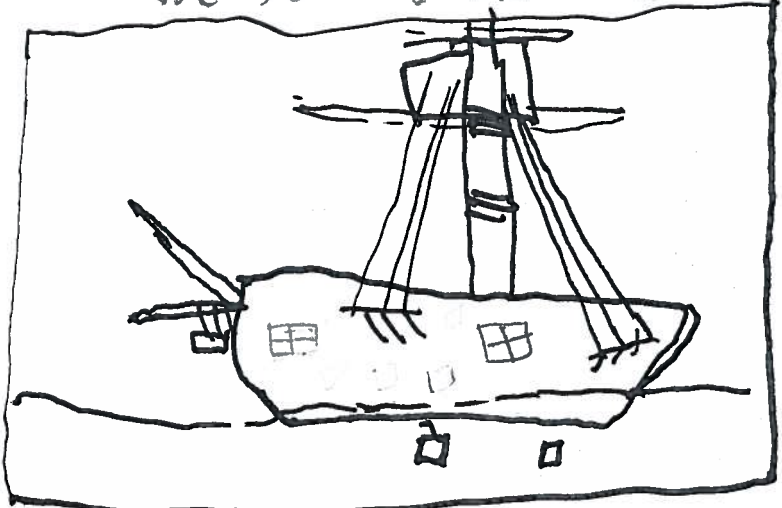

16 the patriots threw thousands of pounds of tea. We are not ungrateful at all. The King is a coward he should be replaced we should be able to have our own laws and the King should not put taxes on tea because We already let soldiers live in our homes. The patriot dressed as MoWhaks because the MoWhaks came together to make laws and the patriots wanted to do that too. We took sail and set them on fire and dumped heavy chests full of tea overboard. The patriots are freedom lovers and so should you. This is the beginning of war we will fight no matter what happens.

Soldier Massacre?

Yesterday there was a "massacre". So my claim for patriots side is that the Boston massacre happened in 1770. So these loyalist shot three of our men. That's our massacre. That was cruel and wrong for killing three men. Taxes was too high for us so we had a protest, and it was peaceful, but we convinced people to get rid of the King and less taxes. We patriots thought that they shot three of our men so we got five of them. We patriot want freedom!
